

16 t TELESCOPIC MOBILE CRANE

613E

The compact one.

The 16 t telescopic crawler crane is a compact construction site crane that can be used in a wide range of ways. Its powerful Full Power Boom, manageable dimensions and excellent off-road mobility mean that it will quickly become the most important tool on your construction site.

This all-rounder impresses with sophisticated technology and masterful interplay. The ultra modern engine and exhaust system, the precise controls, and the powerful work hydraulics ensure maximum performance and a wide range of possible applications.

Maintenance & Service

This is made easy with standard components and easy-to-access maintenance and service points.

Ultimate ease of use

With a sound-proofed, flexibly mounted, elevating comfort MultiCab.

Fast on site and ready for use

With easy transportation including the ballast. Arrive at the construction site, unload, and off you go.

More flexibility

As the Full Power Boom telescopes comfortably under load at any length and safely via the joystick.

More variety

Works optimally with loading hooks, work platforms, lifting forks and grabs.

Picture shows the mobile 613 E with radio remote control carrying out mechanical well regenerating.

Advanced. The E Series

LONG SERVICE LIFE, HIGH VALUE RETENTION

Reliable and powerful thanks to its robust construction and high-quality components

SOPHISTICATED, STATE-OF-THE-ART TECHNOLOGY

Thanks to decades of experience in designing and constructing telescopic cranes

SIMPLE TO MAINTAIN AND SERVICE

- Technology that can be mastered and no over-engineering, easy access to all components

ENVIRONMENTALLY-FRIENDLY DRIVE TECHNOLOGY

- State-of-the-art engine, drive and emission systems in line with the latest technology standards (stage V)

A MODULAR DESIGN. NUMEROUS APPLICATIONS.

OUTSTANDING FLEXIBILITY. WITH THE FULL POWER BOOM.

- Impressive: the robust boom system can telescope easily and safely even with a load on the hook.
- Simple and convenient: can be operated using the joystick for any boom length, without needing to preselect length and load.
- Automatically optimal: always the best load capacity for each boom length.
- Steep things: can work on inclines of up to 4° either with outriggers or freestanding.*
- Comfortable work area: maximum boom length of 18.8 m and folding 5 m fly boom.

Pick & Carry

5.4 t

**with 4.0 m
reach**

**COMPACT AND
STRONG.
WITH MAXIMUM
FLEXIBILITY.**

- Pick & Carry: lifting and moving loads
- Excellent maneuverability even on narrow construction sites thanks to its small turning circle with crawler tracks
- Ideal overview whilst operating thanks to the elevated cab position
- Numerous equipment options: work platform, lifting fork, hydraulic grab, and operation by radio remote control

High levels of stability provided by a outrigger area that is nevertheless compact at 4 m x 4.35 m

Extensive mobility including off-road capability: all-wheel drive, single or twin axle steering and crab steering

BETTER VIEW. BETTER SAFETY. BETTER ELEVATION.

The elevating cab and an eye level of around 4.30 m (!) means improved safety levels when lifting, moving and setting down loads.

A good view of all obstacles

The ideal cab and view height whilst operating means having a perfect view of all the obstacles on the construction site.

Improved ergonomics

Sitting in a natural position and having the optimal view means you can concentrate and yet stay relaxed.

MULTICAB

THE PREMIUM CAB.

- Flexibly mounted, comfortable operator's cab with super sound-proofing
- Panoramic view with all-round glazing made from safety glass, with curved, hinged windshield, large roof window and rear window
- Optimal interior climate thanks to continuously adjustable cab heating and air conditioning
- Air-suspension comfort seat with seat heater, vibration damper, adjustable to any weight
- Ergonomic set up, resonant controls
- Radio with Bluetooth®

MAXIMUM ANGLE
OF VIEW

PANORAMIC VIEW

up to **4.3 m**
viewing height

TAKE FULL CONTROL WITH OUR JOYSTICKS

- Joysticks on resonant, seat-mounted consoles
- Comfortable grip thanks to ergonomic design
- Shortcuts for direct and sensitive control of all functions
- Easy to use thanks to the optimized design of buttons and switches

GERMAN
DESIGN
AWARD
WINNER
2018

EASY TO TRANSPORT. READY FOR USE QUICKLY.

It is not just with procurement and operating costs that companies can make cost-effective decisions and savings. Astute contractors know that simple and economical transportation between construction sites is an important factor too.

Economical

With a transport width of just 2.55 m, the 613 E fits easily on any standard low-loader. This means a transport license is not required and significantly reduces the costs involved.

< 20 t*

Easy

Thanks to its low weight of less than 20 t, the machine can be transported in its fully assembled mode. Even entering of downtown sites is hassle free.

Quick

Once it reaches the construction site, the machine is ready to use as soon as it has been unloaded.

MAINTENANCE AND SERVICE. MAKE IT EASY ON YOURSELF.

The SENCON control system supports you with diagnostics and makes troubleshooting easier. So your machine is back in action faster.

All maintenance and service points are arranged clearly and easily accessible. The clear labeling of components makes finding your way around easy.

KEEP IT SIMPLE. WITH TECHNOLOGY THAT CAN BE MASTERED.

Reliable and practical technology makes life easier. Where electronics add no value, we rely on hydraulics and electrical systems.

We make you happy, not reliant. With cost-effective components and fewer process steps, you can take care of your own machine.

A central electrical distributor simplifies the clearly arranged standard components for the controls and troubleshooting.

TECHNICAL DATA, EQUIPMENT

MACHINE TYPE

MODEL (TYPE) 613 Mobile

ENGINE

TYPE Cummins F3.8, 100 kW / 135 hp at 2200 min⁻¹
Emissions in line with stage V standards

FPT N45, 92 kW / 125 hp at 2200 min⁻¹
Emissions in line with stage 3a standards

both:
Direct injection, turbocharged, charge air cooling, reduced emissions

COOLING water-cooled

DIESEL FILTER with water separator and heater

AIR FILTER Dry filter with integrated pre-separator, automatic dust discharge, main element and safety element, contamination indicator

FUEL TANK 200 l

DEF TANK 30 l

ELECTRICAL SYSTEM 24 V

BATTERIES 2 x 155 Ah

OPTIONS Low temperature package with engine preheating (heavy duty batteries)

Electric fuel pump

UPPERCARRIAGE

DESIGN Torsion-resistant box design, precision crafted, steel bushings for boom mountings. Service-friendly design, engine installed in the longitudinal direction

ELECTRICAL SYSTEM central electrical distributor, battery disconnect switch

LIGHTING LED headlights for optimal lighting of the work area

COOLING SYSTEM 3-circuit cooling system with high cooling output, electrically regulated fan drive for cooling water, charged air and oil

SAFETY Camera monitoring of the area to the rear and the right side

OPTIONS Additional LED headlights

2 flashing lights at the rear

Additional cameras

Sea climate resistant coating as corrosion protection

Customized paint finish

Low temperature package

Automatic central lubrication for boom attachment point, luffing cylinder, live ring track and winch drum bearings

Pinion tooth lubrication

TECHNICAL DATA, EQUIPMENT

HYDRAULIC SYSTEM / HYDRAULICS

Pump unit attached directly to diesel engine. Load-sensing/ LUDV hydraulic system, electro-hydraulic work functions, load limit control. Axial piston variable displacement pump. Multiple work functions can be controlled precisely simultaneously and independently from each other thanks to the independent, proportional allocation of the pump flows.

FLOW RATE	up to 200 l / min
OPERATING PRESSURE	up to 330 bar
FILTRATION	High-performance filtration with long change interval
HYDRAULIC TANK	180 l
CONTROL SYSTEM	Proportional, precision hydraulic control of the movements, 2 servo joysticks for work functions, additional functions via switches and foot pedals - arranged clearly and ergonomically
SAFETY	Hydraulic circuits with safety valves Pipe-fracture safety valves for luffing cylinder and telescopic cylinder
OPTIONS	Bio-oil filling SENNEBOGEN HydroClean micro-filter system (3 µm) with water separator Hydraulic tank preheating

ROTARY DRIVE / ROTOR

GEARBOX	Compact planetary gear with bent-axis hydraulic engine, integrated brake valves
SWING BEARING BRAKE	Spring-loaded multi-disk brake
SLEWING RING	Large-scale, externally geared 1-row slewing ring
SLEWING SPEED	0-2 min ⁻¹ , variable

CAB

MULTICAB

CAB TYPE	Multicab, 1.75 m elevation
CAB EQUIPMENT	Hydraulically elevating cab as standard across the series. Comfortable operator's cab, flexibly mounted with super sound-proofing. All-weather version, all-round glazing made from safety glass and a large skylight, opening windshield. Flexibly mounted comfort seat, weight adjustable and with vibration damper. Clear dashboard with swivel-mounted steering column. Continuously adjustable cab heating with air circulation control and particle filter, automatic air conditioning
OPTIONS	Auxiliary heating system with timer FOPS protective front grating Protective roof grating FOPS protective roof grating Glazing in bulletproof glass Radio with USB and SD connections, MP3 and Bluetooth® functions

Optional protective roof grating

TECHNICAL DATA, EQUIPMENT

Optional radio remote control

Optional hydraulic grab

Optional fly boom

EQUIPMENT

BOOM	3-part with pulley head, hydraulic telescopic extension from 14.6 to 18.8 m, adjustment speed -12° to 70° in approx. 35 seconds
SAFETY BRAKE	Spring-loaded multi-disk brake
CRANE SAFETY	Latest generation of load moment monitoring with event recorder, clear operations panel showing all important data via the SENCON display, lifting limit switch, cable exit protection, pressure relief valves and pipe fracture protection
CYLINDERS	Hydraulic cylinders with high-quality sealing and guide elements
OPTIONS	<p>Fly boom 5 m folding jib, load capacity 4 t, tiltable by 45°, easy to set up without additional equipment, can be bolted to basic boom when not in use</p> <p>3 m folding jib in combination with 2nd hoist winch, load capacity 4 t, tiltable by 20° / 45°, easy to set up without additional equipment, can be bolted to basic boom when not in use</p> <p>Lifting fork</p> <p>Aerial work platform</p> <p>Special paint finish</p> <p>Emergency unit</p> <p>Radio remote control</p> <p>Work area limitation, freely programmable</p> <p>Grab equipment with clamshell grab, 600 l</p> <p>Additional load charts accepted for 2°/4° incline position</p> <p>SENtrack DS telemetry system</p>

TECHNICAL DATA, EQUIPMENT

UNDERCARRIAGE

DESIGN	Mobile undercarriage, torsion resistant and precision crafted, with integrated 4-point outrigger
DRIVE	All-wheel drive and steering, travel drive with 2 stage powershift transmission, automatic pendulum axles with 4° pendulum angle, manually lockable, strong traction and driving dynamic
PARKING BRAKE	Spring-loaded multi-disk brake
TIRES	8x 10.000-20 tires
SPEED	0 - 8 km/h on site 0 - 20 km/h with StVZO [Road Traffic Licensing Regulation] approval
OPTIONS	Wider tires available on request with increased vehicle width of 2.75 m Shunting coupler

WINCH

The winches are driven via high-pressure-regulated adjustable hydraulic engines, so there is always optimal pulling force speed control. Hydraulic lowering brake valves for sensitive, wear-free braking. Strong, oil bath, planetary gear, low-maintenance.

Holding brakes are spring-loaded, maintenance-free, low-wear multi-disk brakes operating in oil bath, oil-cooled

35 kN tensile force (3rd position), cable speed 95 m/min., cable diameter 14 mm, max. cable length 80 m

OPTIONS 2nd crane winch: 35 kN tensile force (3rd position), cable speed 95 m/min., cable diameter 14 mm, max. cable length 160 m

OPERATING WEIGHT

MASS approx. 19,700 kg
with 18.8 m telescopic boom, 5 m fly boom, 10.5 t hook, 80 m hoist cable, 4.1 t ballast, 3.5 t winches

NOTE Operating weight varies by model and equipment.

Subject to technical changes!

Optional 2nd crane winch

CRANE EQUIPMENT

**MAIN BOOM
HA 18.8 m**

Notes:

1. The specified load ratings given apply when the machine is on a firm and level surface.
2. The load ratings are given in tons and apply for a 360° swing angle. The load ratings apply to the 613 M with deployed outriggers, the load ratings in brackets () apply when it is freestanding on tires.
3. The load ratings take the DIN 15019.2 and ISO 4305 standards into account.
4. The weight of the load handling equipment (hooks, suspension gear) should be deducted from the load capacities.
5. Load capacities must be limited or reduced in adverse conditions such as soft or uneven ground, slopes, wind, side loads, swinging loads, jolts or sudden stopping of loads, personnel and operators not experienced in handling loads.
6. Permissible cable pull per strand in crane mode for a cable diameter of 14 mm is 3,500 kg.
7. Load capacities marked with a * only apply with specific equipment.
8. The load ratings given are for reference only. Please refer to the tables in the operating instructions for the relevant applicable load ratings.

This catalog describes machine models, the scope of equipment of individual models, and configuration options (standard equipment and optional equipment) of the machines delivered by SENNEBOGEN Maschinenfabrik GmbH. Machine illustrations may contain optional and supplementary equipment. Actual equipment may vary depending on the country to which the machines are delivered, especially in regard to standard and optional equipment. All product designations used may be trademarks of SENNEBOGEN Maschinenfabrik GmbH or other supplying companies, and any use by third parties for their own purposes may violate the rights of the owners.

Please contact your local SENNEBOGEN sales partner for information concerning the equipment variants offered. Requested performance characteristics are only binding if they are expressly stipulated upon conclusion of the contract. Delivery options and technical features are subject to change. All information is supplied without liability. Equipment is subject to change, and rights of advancement are reserved. © SENNEBOGEN Maschinenfabrik GmbH, Straubing, Germany. Reproduction in whole or in part only with written consent of SENNEBOGEN Maschinenfabrik GmbH, Straubing, Germany.
